

Stephen Attenborough
VP of Astronaut Relations
Virgin Galactic

After almost 20 years in senior business and client management roles for a top London finance company, Stephen joined Virgin Galactic as the business launched in 2004 and became possibly the world's first Head of Astronaut Relations! Stephen now leads Virgin Galactic's commercial operations with a team based at its appropriately named Half Moon Street, London headquarters. As well as having put into place the commercial foundations of this amazing new business, the team has taken a large number of firm bookings and deposits from some of the 43000 people from 123 countries who have registered as potential Virgin Galactic astronauts.
